Cours

Vendredi 8 Octobre 2021, 15 :00
CPHT, Salle Louis Michel Batiment 6
Domaines : hep-th

Titre : *On scale, conformal and Weyl invariance in QFT*

Orateur : **Tasos Petkou**

Résumé : *Scale, conformal and Weyl invariance play a central role in Quantum Field Theories, and they are omnipresent in AdS/CFT correspondence. Through various examples I will review various issues and possible misconceptions regarding the interrelationships between these three important notions and connect them to some recent investigations.*
