Colloquium Pierre et Marie Curie

Jeudi 22 Mai 2025, 17 :00
UFR-PHYS-SU, Amphi 25 Campus Pierre-et-Marie-Curie, Jussieu
Domaines : astro-ph—cond-mat—gr-qc—hep-ex—hep-lat—hep-ph—hep-th—physics—quant-ph

Titre : *The exoplanet revolution*

Orateur : **Didier Queloz (Cambridge U & ETH Zurich)**

Résumé : *The richness and diversity of planetary systems that have been detected have forever changed our understanding of planetary systems in the Universe. This talk will address the challenges to the canonical model of planet formation and the historical opportunity to address the question of the origin and prevalence of life in the Universe. I will share with the audience recent advances and ideas in this exciting area of research.*
