Seminar of the theory group of APC

Mardi 24 Janvier 2017, 14 :00
APC, 483 A - Malevitch
Domaines : hep-th

Titre : *Highly Excited Strings*

Orateur : **Dimitris Skliros (Nottingham)**

Résumé : *Highly excited strings and their interactions are likely to play a fundamental role in string black hole physics, cosmic superstrings and associated string phenomenology such as gravitational wave detection. I will discuss a novel and efficient approach to computing such observables directly from worldsheet string path integrals.*
