Séminaires de Physique-Mathématique du LPT-Orsay

Vendredi 8 Décembre 2017, 14 :00

LPT, salle des seminaires (piece 114), LPT Orsay, bldg 210, 1er etage

Domaines : hep-ph

Titre : *Tensor Models for Black Hole Probes*

Orateur : **Nick Halmagyi (LPTHE Paris)**

Résumé : *We will describe a series of models where tensors of different degrees are coupled together and solved in the large N limit analytically. The 3-tensor model has been shown to be related to the SYK model in the large- N limit and thus the physics of the near horizon of black hole. Our extension of the relationship allows us to explore the physics of probes in these black hole backgrounds.*
