Particle Physics in Paris

Mardi 27 Octobre 2020, 16 :00
IHP, Seminar via zoom https ://ijclab.zoom.us/j/94900481972
Domaines : hep-ph—hep-th

Titre : *Soft signals at the high luminosity LHC*

Orateur : **Simon Knapen (CERN)**

Résumé : *The LHC is both a Higgs and B-factory, and for both particles it will deliver the largest data set for many decades to come. I will discuss a few examples of ways we can leverage this to search for beyond the Standard Model physics during the high luminosity phase of the LHC.*
